# Foodservice Kits

At The St. Food Co. we pride ourselves on creating delicious food. Handmade by our chefs with premium Australian ingredients, our Foodservice Kits (FSK's) are designed to make life easier for your business.

FSK's are delivered to your door ready to heat and serve. This eliminates the guess work and instead offers consistent, delicious products with lots of variety. Suitable for small and large businesses, including school canteens, mining camps, defence force, healthcare facilities, pubs, clubs, retail outlets, roadhouses and beyond, helping to feed both staff and customers.

# Key Benefits

## CONSISTENCY & QUALITY

Consistent, high-quality chef prepared meals.

## VARIETY

Keep it interesting with over 20 meal options.

## CONVENIENCE

Simply heat and eat.

## STAFF

Reduce workload and minimise impact of staff shortages.

## REDUCED WASTAGE

Portion control, long shelf life and no off-cuts.

## SAVE TIME

Save time on preparation and cooking.

# Easy as 1, 2, 3

## UNBOX

Unbox food service kits from delivery.

## HEATING

Following heating instructions.

## SERVE

Plate up and serve portion controlled meals.

## Case Study 1

National Mining Camp Caterer currently using FSK's to accommodate chef labour shortages in a post Covid market.

Working closely with Civeo to tailor products to their needs, The St. Food Co. has the ability to shift and adapt according to the customers needs.

## Case Study 2

Roadhouse located on the Nullabor, currently using FSK's in remote locations where staff and produce isn't readily available.

Food Service Kits have been used in the roadhouses in the peak and off seasons to assist with staff shortages.

The St. Food Co. services Nullabor roadhouses via PFD and Morco Fresh ex. Adelaide.

## Case Study 3

Capital city based Convention Centre, currently using FSK's as **components of a larger menu item**, eg Brisket FSK used to make Brisket Sliders.

The St. Food Co. services Bidfood nationally. Bidfood can cater to have stock on hand in the relevant branch or access charge-through/cross docking in the relevant branch.
